

Luxury Massage Chairs

Made **in** Japan

THE REVOLUTIONARY MASSAGE CHAIR
THAT SURPASSES HUMAN TOUCH!

ROBO HCP LPN30000

Black
(BK)

The AI Hybrid Mechanism Emerges A True Winner!

Family Inada Robo was born with one goal in mind – surpassing the massage experience offered by human hands. Powered by AI technology, Family Inada Robo detects muscle stiffness in your body and then massages accordingly. The mechanism enables the massage chair to adjust massage operations, strength and time as per an individual's muscle shape and size and the amount of stiffness that needs to be relieved. All you have to do is select a massage course and then choose the places that you would like to skip.

IT'S DIFFERENT. IT'S INNOVATION. IT'S A REVOLUTION!

Programs that incorporate professional massaging techniques:

- Five - finger kneading massage for the arms
- Chest holding shoulder top massage
- Neck deep layer shiatsu massage
- Upper and lower independent circular deep massage
- Left - right independent holding massage
- Gluteus maximus compression massage
- Five - finger kneading massage for the legs
- Sole deep layer 3D shiatsu massage
- Face Recognition
- Individual Profiling

THERAPINA

**'FEELING GOOD' EVERY DAY IS
WHAT WE CALL 'GOOD HEALTH.'**

Therapina HCP LPN9000D is enabled with an, 'Automatic Adjust - Sensor Search Shiatsu Point System', which identifies each and every shiatsu point of the body. Shiatsu points differ for every individual depending on their body types. Once the structure of the body is defined in detail, the rollers are automatically adjusted for accurate massage movements.

THERAPINA HCP LPN9000D

**Black
(BK)** **Ivory
(IV)**

Stiffness and fatigue is variable for every individual according to their schedules. Inada Therapina's AI mechanism adjusts multiple air cells, spread throughout the massaging zones, to optimum strength and duration as per the scanned body type according to individual profiling. The roller speed is adjusted according to the motor signals received, depending on the load of the rollers while letting you pick your therapy of choice on the touch pad with concentration points and relaxing massage sessions.

Vita

**THE ALL NEW LUXURIOUS
SOFA-LIKE BODYCARE CHAIR
THAT BLENDS INTO YOUR LIFESTYLE.**

VITA HCP-VT200

As a sofa:

Comfortable seating like a sofa that fits your body perfectly and offers a soft touch to the skin.

As a massage chair:

This offers a reliable massage comfort made possible by the mechanisms that are equipped with advanced AI technology as well as a course lineup that you can select that best suits your age and lifestyle and your level of fatigue.

FAMILY INADA's unique double engine thoroughly massages the body.

Offering you a massage that closely resembles that of a professional masseuse with centripetal method and centrifugation method and a high-quality design that brings harmony to diverse lifestyles along with a dedicated chair stand.

Programs that incorporate professional massaging techniques:

- Morning session
- Night session
- Full body
- Neck and shoulders
- Upper body
- Lower body
- Soft mode

Compact and Lightweight:

This chair can be installed in a variety of rooms because of its compact size while still offering full massage functions using the double engine. Furthermore, you can freely and easily rearrange where you place it because it is lightweight, at only approximately 26 kg (57 lbs.)

Family Inada - A New Lifestyle!

Modern-day life is such that almost every member of a family is stressed and tired at some point due to varied reasons. These reasons could range from the pressures of office work to exhausting household chores or even extensive amount of studying and various club activities. Family Inada has been created to alleviate this stress and fatigue brought on by our demanding modern-day lives.

Family Inada proposes a new, healthier way of life! Make it a habit to take a little time out of your day to relax. Refresh and invigorate your body and mind so you can face the new day with renewed energy and mindset.
